

4.6. CARS IDENTIFICATION

In accordance with the new regulations concerning the Rally cars identification in France, the car identification will be carried out by putting two numbers (210mm X 140mm), one located in front of the car, and the other on the rear

The identification number will be allocated by the technical delegate as a race number.

The validity of this race number is given for one complete year

The dimension of these numbers and the technical characteristics will

be in conformity with the diagram below

further informations

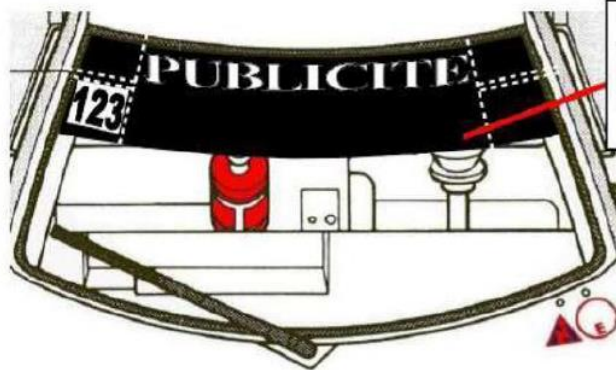

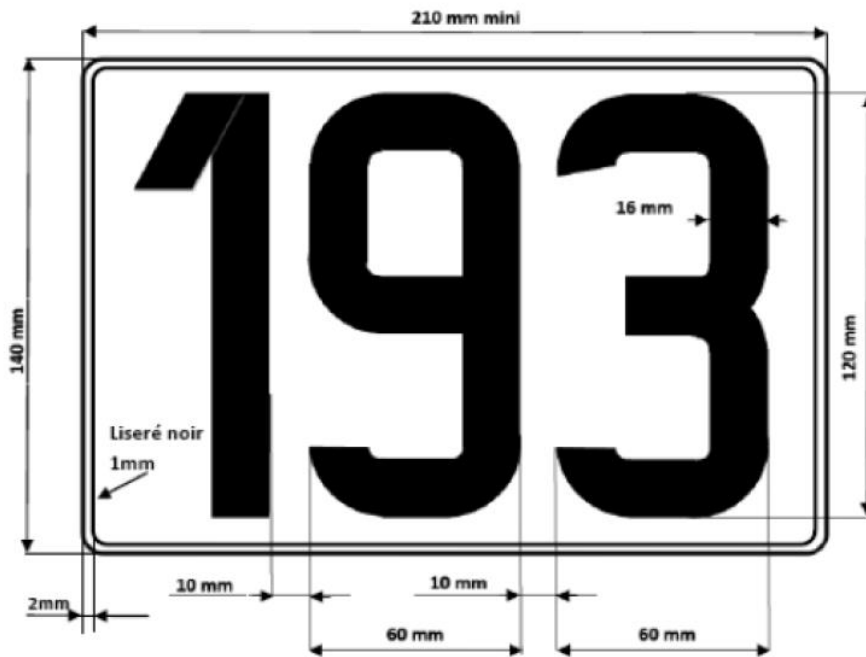

Color: black line on white zone.

The original license plates of the car must be removed, or masked.

On the rear of the car, the identification number must replace the license plate, and be centered.

Furthermore, race numbers blacks on white zone, must be put up on the rear high areas of the cars (left and right side).The minimum height of the numbers must be 23cm and the line width of each number must be 4 cm.

The competitors must provide these 4 numbers for their car. To know the race number, please send one e-mail to verron.sebastien@sfr.fr

The advertising on windscreen will not be beyond the area provided
